Dear Applicant:

This letter refers to the above-captioned application for a minor change to a licensed facility construction permit.

Pursuant to Section 17.4(a) of the Commission's Rules<sup>1</sup>, any proposed construction of a new antenna structure or proposed alteration of an existing antenna structure that requires notification to the Federal Aviation Administration (FAA) requires registration with the Commission prior to construction or alteration. The application indicates that notification has been filed with the FAA, but there has been no showing of status or an amendment supplying the required registration number. A further inquiry to the FAA notification system indicates that the proposed structure has received a determination of hazard to air navigation.

To date, over two years have passed since the application stated that notification has been filed with the FAA with no tangible evidence being presented that the proposed antenna structure has been registered.<sup>2</sup> Therefore, in light of the above, application BPH-20061114ABD is unacceptable for filing pursuant to 47 C.F.R. § 73.3568(a)(1) and is HEREBY DISMISSED for failure to prosecute an application. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Rodolfo F. Bonacci
